

# AMERICAN ECONOMIC DEVELOPMENT SINCE 1945

*Growth, Decline and Rejuvenation*

SAMUEL ROSENBERG

This book provides an historical analysis of postwar economic development in the US, helping the reader to understand the nation's current economic position. Samuel Rosenberg investigates three postwar phases: the creation of an institutional framework setting the stage for prosperity in the US after World War II, the forces undermining this institutional framework and the resulting stagflation of the 1970s, and the recreation of a new institutional structure in the 1980s. Basic economic concepts are introduced and explained throughout and specific attention is paid to macroeconomic policy, industrial relations, the role of the US in the world economy, social and labor policy, the structure of the labor force, and the distribution of income by race and gender.

**CONTENTS:** Part I: Introduction • Economic Mobilization for Survival, 1940-1960 • Part II: The Making of an Institutional Framework, 1945-1960 • Macroeconomic Policy, Economic Instability and Economic Growth • Business-Labor Relations: Conflict Amidst Stability • From Dollar Shortage to Dollar Glut • Part III: Strains Developing within the Institutional Framework, 1960-1971 • From Guideposts to Controls: The Rise and Fall of Keynesian Demand Management • Standoff at the Workplace • The Persistence of Inequality and the Limits of Liberal Policy • The Dollar: No Longer as Good as Gold • Part IV: The Unmaking of an Institutional Framework and the Recreation of Another, 1971-2000 • Stagflation, 1971-1980 • The Economic and Political Stalemate, 1971-1980 • Restructuring the Economy: The Market-Based Conservative Strategy, 1981-1992 • Toward the 21st Century: A Reinvigorated Economy, 1993-2000
