

BEYOND CAPITAL

Marx's Political Economy of the Working Class

MICHAEL A. LEBOWITZ

In a completely reworked edition of his classic (1991) volume, Michael A. Lebowitz explores the implications of the book on wage-labour that Marx originally intended to write. Focusing on both critical assumptions in Capital that were to be removed in Wage-Labour and on Marx's methodology, Lebowitz stresses the one-sidedness of Marx's Capital and argues that the side of the workers, their goals and their struggles in capitalism have been ignored by a monolithic Marxism characterized by determinism, reductionism and a silence on human experience.

"Lebowitz's argument about the inadequacy of Marx's formulation of relative surplus value is a major contribution to Marxian thought."—Tony Smith, Philosophy, Iowa State

"This book offers an outstanding contribution to Marxist theory. It is innovative, clear-sighted and thought-provoking. Lebowitz is one of the most original thinkers of our age. *Beyond Capital* should be read by all those with an interest in Marx's analysis of capitalism."—Alfredo Saad-Filho, Political Economy, School of Oriental and Asian Studies, London

CONTENTS: List of Figures • Acknowledgements • Preface to the Second Edition • Preface to the First Edition • Why Marx? A Story of Capital • Why Beyond Capital? • The Missing Book on Wage-Labour • The One-Sidedness of Capital • The Political Economy of Wage-Labour • Wages • One-Sided Marxism • The One-Sidedness of Wage-Labour • Beyond Capital? • From Political Economy to Class Struggle • From Capital to the Collective Worker • Notes • Bibliography • Index
