

## Puerto Rico Institute of Statistics

### Position Available - Executive Director

The Board of Directors of the Puerto Rico Institute of Statistics seeks a candidate for the position of Executive Director of the Institute. The Institute of Statistics was created to coordinate the production of statistics by governmental agencies and to implement changes in the data collection processes in order to make governmental statistics reliable, timely, and broadly accessible. According to the law that created the Institute, the Executive Director should be a person of recognized personal and professional integrity, objectivity, and competence in the fields of statistics, economy or planning.

The candidate should have the following qualifications:

1. A doctoral degree in an area of public policy and administration, business administration, or the social sciences, such as, statistics, economy, planning, demography, sociology, etc.
2. Be knowledgeable about statistical methodology and its applications, and experienced in data management and statistical systems as evidenced by work experience, research, or publications.
3. Previous managerial or administrative experience to qualify him/her to manage a public corporation.
4. Vision, leadership, effectiveness in reaching established goals, and excellent interpersonal skills.
5. Fully bilingual: excellent verbal and writing skills in both languages, Spanish and English.

The salary will be commensurate with the experience and credentials of the candidate. Expected starting date is August 1, 2006. The search will continue until the position is filled. Please send a cover letter, C.V. and appropriate publications to [iepr@metro.inter.edu](mailto:iepr@metro.inter.edu)
