Watch the video titled *Giant Brains: The Machine that Changed the World*. This video will be shown in class on 7/7/11.

Using the information from that video, answer the following questions:

1) Briefly list 5 facts about computers that you did not know before watching this video.

2) Briefly list 3 important events that you feel contributed most to advancing the field of computer science.

3) Pick one person who was discussed in the video. Find out something interesting about this person beyond what was covered in the video. Write one paragraph describing what you have found. Be sure to cite the sources that you used.

4) Give an example of one question you would ask during a Turing Test that you feel will allow you to determine if you were interacting with a computer or another human.

5) Be sure to create this document using a word processing program (i.e. Microsoft Word). You will hand in a copy of this assignment in class on Monday. Be sure you have an electronic copy of this document with you when you come to lab on the 12th. We will be using this document for Lab1.
