9. Do you have any other comments to add to your evaluation?

Please provide any additional constructive comments

- Excellent TA. More helpful than the professor. Complete control of the subject
- Great TA, office hours are organized are helpful. Best math/science TA I've had so far
- Helps alot
- I think it would have been better if he had actually gone to the class and knew what we were doing, instead of asking us what the professor went over that day. Other than that he did really well.
- Knows the material very well, but explains it a little too fast! Other than that, I completely enjoyed having him as a TA, very welcoming and friendly...sometimes a little cocky, but nobody is perfect :p
- Rob helped make things that seemed extremely difficult much easier to understand with patience and passion for the material. He was open to any questions and did not make me feel inadequate if I had very basic questions. He was also very dedicated in actually teaching us and making sure we understand the material instead of just giving us answers. I learned a lot from Rob!
- Rob is THE BEST TA I have ever had my first year at UCSD. He was able to answer all the questions I had by guiding me in the right direction. Not only does he want you to know how to do the problems but he helps us understand why the problem should be done that way and how it relates pictorially. If I get an A in the class, I owe it all to Rob. I seriously wish he could TA all my classes.
- Rob was probably one of the best TAs I’ve had at UCSD. He was helpful and clearly explained the material (sometimes even better than the professor)! Without his help I probably would have failed 20C.
- Rob Won was one of the most helpful TA's I've ever had. He's made Math 20C much less difficult than it would've been otherwise. Rob's attitude is awesome, as he's excited and enthusiastic about the subject. His explanations are very helpful whether it be reviewing class notes or helping with difficult homework problems. If he stays in academia, he's going to be a great professor some day.
- Robert is extremely accommodating and helpful. He is willing to answer all the questions. His style is very organized, straight to the point and clear.
- Super upbeat and friendly. Very helpful, clear and made my life better!!
- The main characteristic of a good teacher is if he is able to present complex ideas and explain it in simple terms that the students would understand. That's Rob. Thanks for all the help. Best TA EVER
- Very charismatic and good classroom control
- You're awesome Rob! You helped (still helping?) me pass this class \(^{\wedge}o^{\wedge})/
