9. Do you have any other comments to add to your evaluation?

*Please provide any additional constructive comments*

- 10/10 done.
- Always did a good job of explaining how to do problems, and more importantly concepts. I liked that he pointed out which problems from the book would be helpful for extra practice. Definitely made it worth it to wake up for 8am section!
- Always happy and always super helpful. Robert Won was the best T.A. I have had so far.
- Awesome TA. Very helpful, I attended most of the office hours. Quite honestly, office hours are vital in acing Math 20F.
- Best TA I've had at UCSD by far. Really emphasizes concepts and teaches students to think critically. Office hours and discussions are incredibly beneficial as well.
- Cool guy, remembers students' names and cares about how well they learn the material. Easy to relate to and has good communication skills.
- Enjoyed his direct way of thinking (Linear independence and spanning in terms of pivots), that was not provided by the instructor nor the other TA. Seems dedicated and willing to help, but expects students to interact with him and understand the material already. He doesn't just provide answers but wants us to think about them. Difficult course overall, but he helped somewhat.
- Great TA! Was available during office hours and explained things very clearly.
- He definitely knows his stuff
- He's probably one of the best TAs I’ve had.
- He's really cute, especially when he's explaining things. I love his personality. I really wish I signed up for his discussion.
- I like Robert because he is genuinely interested in the material and in teaching it to us. He is happy during discussion sections and is very approachable.
- Rob spoke a little too fast and I found myself falling behind as I tried to process what he said.
- Rob was very helpful in explaining some of the more difficult conceptual topics of linear algebra. I went to almost all his office hours where he got to specifically answer all my questions and correct me when I was wrong. He also knows a thing or two or three about basketball, which made math all the more fun. If you're reading this, Rob, thanks a bunch.
- Robert Won was a great TA. He was definitely very helpful and held section well. Recommend 100%.
- Robert Won was one of the best TA's I’ve had. All concepts were reviewed and we had multiple chances to ask questions. He prepared us well for the midterms and quizzes.
- Thanks Robert for all your help! He was a very good Math TA
- The TA was very capable and knew the material well, however, he sometimes went off on tangents from what we were learning in class, and that threw me off quite a bit. Still, the section was useful.
- You were great and without your discussion and the review sessions held by you and the other TA I would have failed miserably.
